# Autologous Serum Eye Drops

## Post-Op Combo Meds Available

### Overall Non-Adherence Rates:

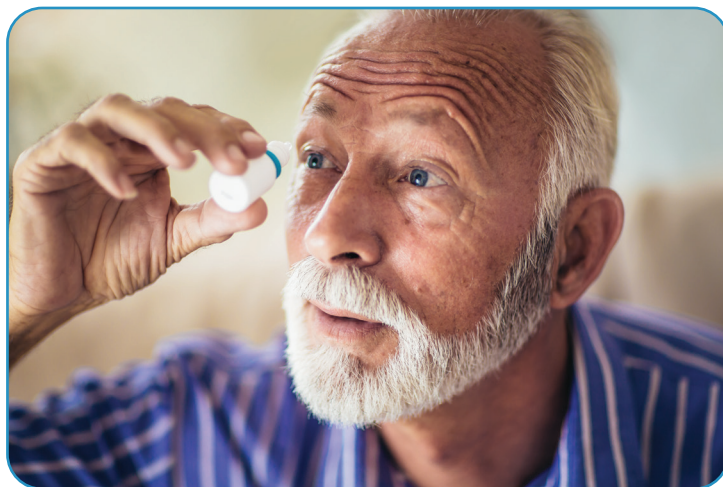

Studies show that

**30-50%** OF PATIENTS

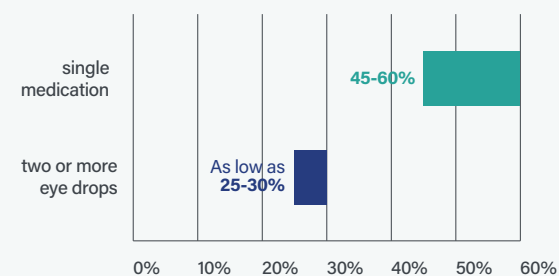

are non-adherent to their prescribed ophthalmic medication regimens.

(Source: Friedman et al, Ophthalmology, 2013)

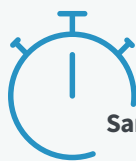

### Multiple Drops = Lower Compliance:

When patients are prescribed **more than one eye drop**, adherence drops dramatically:

(Source: Nordstrom BL et al, Am J Ophthalmol, 2005)

### Same day service:

Same Day

Patients often travel from out of town for appointments with specialist and want to return home with eye drops in hand.

### Phlebotomist on site:

Patients have the confidence of a one stop shop. Blood draw on site allows for a smoother, quicker process.

### Increased Convenience Results in Improved Compliance

Our patient poll shows,

**>70%** OF PATIENTS

have a greater return rate for refills.

### PRP now available!

Platelet-Rich Plasma Drops may:

- Reduce Inflammation
- Improve Wound Healing
- Offer Pain Relief
- Enhance Tear Production
